Subject: Re: Full Agenda - Aug 22, 2022 (Mon) - City Council

[CAUTION: External Email]

Sarah,

Would you please mention to the council members that I would like to add the following to the tree preservation?

1. Need to separate out the invasive trees for eventual replacement vs. native trees for protection.
2. Input in the tree preservation document to phase out invasive trees with native trees, even if the invasive trees are in a grove.
3. Undesirable tree definition: Hazardous to people, buildings, and/or other infrastructures; prone to fire hazardous due to trees with high oil content such as eucalyptus, invasive roots causing underground utility damages; interference with road signages, vehicle travel, and/or prone to falling; and other factors that are harmful to the surrounding.
4. Encourage planting of more native trees and plants to reduce our drought condition.
5. Need to review tree planting and/or replacement through the urban landscaping point of view, don't just plant trees without a good landscaping plan.

Appreciate your help.

Thanks.

Irene Lee
