**Subject:** City Council . Consideration item #8

**[CAUTION: External Email]**

Item 8.  
Library Advisory Committee.  
Sue Digre.

Perhaps the rules are covered in the Commission & Committee Handbook ..if so please provide directions on how to access it.

....members of advisory groups should be citizens of the City. The term " stakeholder" is too broad and can be misleading.  
Consultants should not have votes.

....City Council ,and Staff members should not have votes and should not engage in leading ,or controlling conversations.  
They should have a role of guidance in complying with the Brown Act and other Public protections.

...minutes should not be concise action minutes but full minutes.  
Transparency is more important than efficiency.

**CAUTION: This email originated from outside of the City of Pacifica. Unless you recognize the sender's email address and know the content is safe, do not click links, open attachments or reply.**

**Subject:** Sea Wall/ Promenade

**[CAUTION: External Email]**

Good evening Mayor, Councilmembers and Staff of Pacifica,

Our sea wall has been battered, we all know. I am grateful for the special meeting tomorrow to "continue the conversation".

We also all know that any improvements, if they are going to be made, are years away.

The winter of 2023-24 is believed to be part of the El Nino weather system which means we may see even worse over topping, more flooding, and more damage than what we saw in winter 2022-23.

Instead of waiting for an emergency or disaster to occur, Can we shore up what we have now with more rip rap, like Pacifica did years ago? Just to get us over the hump? It's not a long-term solution, nothing is, but it is maybe a good option to lessen the blow.

Pam Raymond  
West Sharp Park
