

## **Communication Program**

A PDF link to the Wastewater Division's SSMP is posted on the CityofPacifica.org website for public review under the Departments –Public works/Waste Water Treatment/Collections. The public may send comments, questions, and input to the Division through the contact information, email and phone number, posted on the same webpage as the SSMP.

The City Council has certified the plan at a regular meeting in which the plan was presented and public input was allowed. The plan was re-certified at a regular Council meeting in November of 2012 in which the updated plan was presented and public input was allowed. Throughout the implementation process public input will be encouraged and reviewed by Division staff.

On October 28, 2019 an updated SSMP was presented and certified at regular Council meeting and public input was allowed. These updates included a spill disinfection plan, an updated org chart, an updated contact page, updated ordinances, updated Grease Trap/Interceptor Inspection Program Audit, an updated sewer map and all SSMP audits & annual SSO reports.
