Are You Prepared for the Winter Storm Season?

The National Oceanic and Atmospheric Administration (NOAA) is expecting a very wet winter with possible flooding. We know that choosing to live in areas with a history of weather-related issues means we must be prepared to be on our own for up to several days. **Are you ready?**

- ☐ Go to www.smcalert.info and sign up to receive alerts on your cell phone and email. You will be notified quickly of tsunamis, floods, fires, road closures, mountain lion sightings, planned events with traffic disruptions, etc.
- □ Tune your portable and car radios to KCBS 740 AM or KCBS 106.9 FM for emergency broadcasts. Assign a preset button for these stations. Get a NOAA weather radio (about \$30) and set it to KHB49 162.40 Mhz and have extra batteries.
- □ When roads are closed due to flooding, trees down or mudslides, you may need to leave your area by a different route than you are accustomed to. Learn those routes now, before you need them. Make arrangements to temporarily stay with family or friends should you need to evacuate your home.
- ☐ Always maintain at least a half a tank of gas in your vehicles.
