Elizabeth and Sarah-

I received this comment for today's Study Session. Could you please include? Thanks.

Sam

Sam Bautista, P.E., QSD/P

Deputy Director of Public Works/City Engineer Engineering & Field Services

Subject: Civic Center Campus Conceptual Design

[CAUTION: External Email]

Dear Mr Bautista

I am writing you to give my input regarding the CCC design. I would like it if the committee would consider removing or moving the generator shed located on the west side of the City Hall. We have been a next door neighbor of city hall for 45 years. We have never had any complaints. However at this time with updates being made, unless the generator will be upgraded to higher standers, I would like to suggest that it be relocated away from homes. When the generator goes on, it sends a plume a black smoke into the air with a terrible smell. Now would be the time to address this. Please pass this information on to the committee. I'm sure the EPA standers have been upgraded over the last 45 years.

Thank You Kathi Porter
