**[CAUTION: External Email]**

I am in total opposition to repealing the above parking ordinance which generally prohibits human occupancy overnight in any vehicle,

Los Angeles was quoted as an example of such a repeal and it was a disaster. Simply put LA put back the ordinance for residential areas due to the fact there was no access to public restrooms and other safety areas. LA then applied for HUD funding to create a "Safe Parking Program" in their business area with police protection and access to public restrooms. Anything else is not humane, safe or compassionate for anyone.
