

Nighttime Demolition of the San Jose Avenue Overcrossing on State Route 1 in Pacifica

What: Demolition of the old San Jose Avenue Pedestrian Overcrossing

When: 8:00 PM, Saturday, March 2, 2019 – 8:00 AM, Sunday, March 3, 2019

Why at Night? State Route 1 cannot be closed during the day, except for emergencies. Since Caltrans cannot safely demolish the overcrossing with traffic passing below, the highway must be closed.

Impacts: Demolition of the bridge will be noisy, but Caltrans has scheduled the work for a Saturday night, which for most people is not a work night.

Also, Caltrans can schedule a longer closure over a Saturday night/Sunday morning than over a weeknight, which allows the work to be completed in one night, rather than two.

The San Jose Avenue Pedestrian Overcrossing will be closed and demolished, making way for the new overcrossing that will be opening in late April 2019
